-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. This is in response to the amendment filed 14 April 2004, in which claims 1-33 remain pending for examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-29 are drawn to a method of establishing a computer-based communication session involving a user of a computer, said method comprising: receiving from the user, notification of a desired participant in the communication session, classified in class 707, subclass 9.
 - II. Claims 30-33 are drawn to a method of establishing a computer-based communication session involving a user of a computer, said method comprising: displaying, on a display screen of the computer, a graphical user interface including representations of multiple communications applications accessible with computer, classified in class 345, subclass 700.

The inventions are distinct, each from the other because of the following reasons:

The inventions in Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instance case, invention Group I has separate utility such as a method of establishing a computer-based communication session involving a user of a computer, said method comprising: receiving from the user, notification of a desired participant in the communication session. Invention Group II has separate utility such as a method of establishing a

computer-based communication session involving a user of a computer, said method comprising: displaying, on a display screen of the computer, a graphical user interface including representations of multiple communications applications accessible with computer.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call was made to Applicant's representative Mr. Kevin L. Daffer on 22 August 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
